

PAR TERRE ONE

Being surprised by what you know - linger with friends - enjoy in style. The Kleinbasler Kulturlokal - traditionally different.

The restaurant is dedicated to the fine flavours and creative interpretations of traditional dishes. Seasonal products from regional suppliers, attention to detail and a good portion of passion are the ingredients of our recipe, which we live every day in our kitchen and service.

Next door, international headliners, up-and-coming talents, loud tunes and soft words ensure a unique cultural programme. We see ourselves as a living room outside of your own home, in which you can listen to the fine arts or casually indulge in our emotions. You need an individualized offer for your private or business event? We can tailor it for you.

The unique infrastructure of the Parterre One allows for unique and memorable events, such as a concert after dinner. Contact us to discuss your request.

GASTRONOMY - SOCIAL - CULTURE

Fresh ingredients and culinary delights, a large portion of hospitality and a great deal of passion for our gastronomic, cultural and social activities form the foundations of Parterre Basel.

In our restaurants culinary pleasure with all senses is the focal point. In addition, we are committed to a lively Basel cultural scene and emphasize a differentiated, sophisticated range of offerings. On our stages our guests experience a wonderful mix of up-and-coming talents, local heroes and established artists.

In our departments we offer unemployed people training places for professional qualification and promote their integration into the labour market. Every year, we accompany around 150 unemployed people from north-western Switzerland on their way into employment and support them with counselling and educational services.
